**Subject:** RE: Keystone Bluffs Mailbox Post

Mr. Brown,

Thank you for your inquiry. Yes, these posts are something I can do. I completely replace the existing post with a new post made out of pressure-treated lumber and painted in the top-end exterior latex paint for maximum durability. I flash the post at ground level with aluminum so that weed-eaters will not chip away at the post.

The price is \$250 installed. Please note, I DO NOT PROVIDE NEW BOXES, only posts. I will clean up the existing box when I install, but if a box is unserviceable the owner or HOA will have to provide the replacement to me at the time of installation. Typical turnaround time is one week.

Also, I need to know your official paint colors (preferably by number) for your neighborhood.

Please let me know if there are any other questions I can answer for you, and thank you again for your interest in my small business.

Thank you,

**Mike**
